

MUSICAL MASTERPIECE

MATERIALS:

Paper

Markers, Crayons or Colored pencils

Music

Find a song you have never heard before.

While the music is playing, use your markers to create marks on the page in the same rhythm as the music.

Draw whatever you want, but make sure to follow the beat of the music.

Use different colors for the different sounds in the song.

Variation: Do this with someone else to see how different or similar are the drawings of the same song.
