

ANIMAL PARADE

Materials: animal figurines, sunny day, paper, pen, crayon or marker, or sidewalk chalk.

On a sunny day, take several animal figurines outside and set them up in an animal parade. If you're using paper, set the paper alongside the parade so that you can see the animals' shadows on the paper. Trace the shadow on your paper. Later you can color in the outlines and add other things to your parade.

Try tracing the shadows on the sidewalk using chalk!

Bonus: Do this at different times of day to see if the shadow outlines change.

GREAT EXPLORATIONS
