

# CLOUD SHAPES FINGERPAINTING

## **MATERIALS:**

**White glue**

**Shaving cream**

**Thin cardboard**

(cut open a cracker or cereal box and use the blank inside)

**Cloud shapes download**

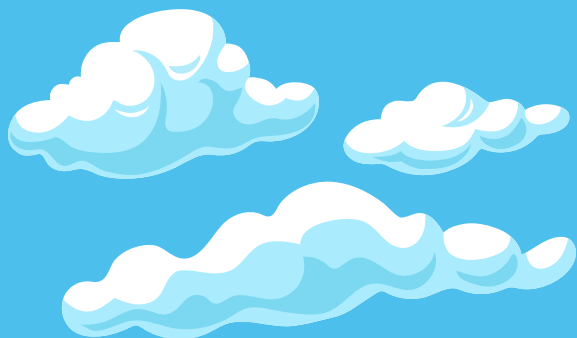

**Scissors**

## **Activity:**

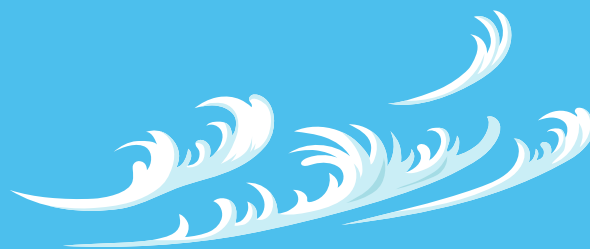

1. Print the cloud shapes sheet.
2. Cut the cardboard into 6 even pieces.
3. Make cloud paint using equal parts white glue and shaving cream.  
(less messy option would be to use cotton balls)
4. Look at the shapes of different kinds of clouds on the cloud sheet. Fingerprint (or glue cotton balls) the shape of each cloud on a different piece of cardboard. Allow to dry.
5. Cut the cloud shapes and their names out and glue them onto the blank cardboard pieces.
6. put the dried fluffy cloud cards into a bag or box you can't see into. Look at the information cards and try to find that matching fluffy cloud in the bag.

*Option: Use the cloud paint to make different shapes. When they're dry, have someone else feel them and guess what they are.*

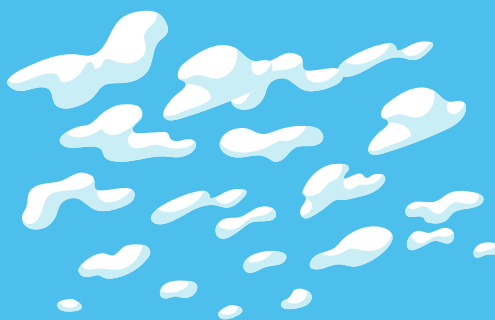

# TYPES OF CLOUDS

Cumulus

Cirrus

Stratus
