

# DINOSAUR TRACKS!

## **MATERIALS:**

**Paper**

**Crayons or markers**

Draw an outline of what you think a dinosaur foot print would look like!

Then, try tracing your own foot inside of your dinosaur print!

If you have paint (and feel like being messy) cover the bottom of your foot in a layer of paint and step on the paper!

For older kids: Try to find some longer paper, or taping/putting some paper together. Put a layer of paint on the bottom of your feet and walk around like dinosaurs! Once it dries, use art supplies to decorate your footprints and give them some dinosaur-character!
